Praktika

New generation of mechanical beds

- Lifetime durability
- Manufactured in Europe according to EN 60601-2-52
- Safe continuous positioning
- Easy bed hygiene
- Lifetime durability
- Manufactured in Europe according to EN 60601-2-52

Patient
- Modern design
- Unique system Ergoframe®

Staff
- Safe continuous positioning
- Easy bed hygiene

Management
VARIABLE BED POSITIONING WITH ERGOFRAME®

Easy mechanical operation by crank mechanism allows adjustment of the backrest and thighrest. The calfrest can be adjusted to 5 positions by using the handle. Effective prevention of pressure ulcers is ensured by the unique system Ergoframe® which decreases the pressure in parts of the patient’s body that are of high risk.

Modern design and lifetime durability

Removable plastic bed ends with locks
Removable plastic mattress platform covers
Split plastic side rails with colour decor
Angle indicator of backrest position
Crank mechanism for bed positioning

PRAKTIKA BED IN TWO VERSIONS

New generation of Praktika beds includes Praktika 1 with fixed height of mattress platform. The next version Praktika 2 bed has adjustable height of mattress platform, optionally TR/ATR function and can be centrally braked.

PRACTICAL DETAILS

- Locking bed ends
- Accessory rail
- Protective corner bumpers and additional vertical bumpers
- Accessory holder

FOR PATIENT SAFETY

Complete solution of side rails offers individual settings and ensures maximum patient safety.

- Protector for the foot part of bed can be used with single and also split side rails
- Extender for single collapsible side rails to increase the possible maximum height of the mattress
- Single collapsible side rails
